

MUBASHIRA P

pmubashira428@gmail.com +91 7356162358 linkedin.com/in/mubashirap2 github.com/MubashiraAli Kerala, India

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in full-stack web development and AI-driven application integration. Currently developing AI-powered features for a hospital information system across frontend, backend, and REST APIs. Experienced in delivering full-stack applications and production-grade solutions using React.js, Next.js, Django, Node.js, and Gemini API.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite
Backend: Django, Node.js, Express.js, REST APIs
Databases: MySQL, PostgreSQL
AI/ML: Google Gemini API, TensorFlow, NLP
Tools: Git, GitHub, Docker, Postman, Vercel

EDUCATION

B.Tech in Computer Science and Engineering A.P.J. Abdul Kalam Technological University, Kerala	2022 – 2025
Diploma in Computer Science Engineering SSM Polytechnic College, Tirur, Kerala	2019 – 2022

EXPERIENCE

Software Engineer (Full-Time) – Curanova.ai • Developing a Hospital Information System (HIS) with a team of 4, integrating AI-powered features into full-stack healthcare workflows. • Building and maintaining frontend, backend, and REST API components for scalable enterprise applications. • Developing and enhancing application features using Python, React, Django, and SQL, with a focus on reliability and maintainability. • Working with Git, GitHub, Docker, and Postman for version control, containerization, API testing, and collaborative development. • Collaborating with cross-functional team members to debug issues, implement new features, optimize application workflows, and deliver production-ready solutions.	Jun 2026 – Present
Freelance Web Developer – Self-Employed • Delivered 5+ full-stack web applications for independent clients using React.js, Next.js, REST APIs, TypeScript, and MySQL. • Managed development, client communication, and project delivery independently.	Dec 2025 – Jun 2026
Python Full Stack Developer Intern – Pentagon Space, Bengaluru • Developed backend modules using Python, Django, MySQL, and Django ORM within a 3-member development team. • Built responsive UIs using React.js, HTML5, CSS3, and Tailwind CSS; collaborated using Git and GitHub.	May 2025 – Dec 2025

PROJECTS

AI-Powered E-Commerce Application — React.js, Node.js, Express.js, MySQL, Gemini API

- Built a full-stack e-commerce platform with a Gemini-powered AI shopping assistant for product recommendations and natural-language user queries.
- Implemented a React.js frontend with Node.js/Express.js backend and MySQL database; deployed the application for production use.

LearnHub — Next.js, Vercel, Neon PostgreSQL

- Developed an e-learning platform supporting course browsing, student enrollment, and progress tracking using Next.js and PostgreSQL.
- Deployed on Vercel with Neon PostgreSQL, using a cloud-based architecture for reliable application and database hosting.

MelodicVerse — Python, TensorFlow, NLP

- Led a team of 4 to develop an NLP-based application that converts text input into musical melodies.
- Designed and integrated the text-processing and melody-generation workflow, coordinating development from concept through deployment.

ACHIEVEMENTS & CERTIFICATIONS

- 1st Place – Blind Coding Competition, Technical Fest
- Python Programming Workshop – STEM Robotics
- Data Analytics Essentials – Cisco
- IEEE Paper Presentation Certification
